[tips and tricks everyone should know]

Software for college students

- **Microsoft Office 365 for Education** - Full and part-time students (and teachers) get Word, Excel, PowerPoint, OneNote, Microsoft Teams, and more, completely free. Plus, it comes with 1 terabyte of OneDrive cloud storage!
[Download Here!](#)
- **AVG Antivirus** - will protect your PC from viruses and malware, and will also block unsafe links or downloads (it will also remind you what you're not protected against unless you upgrade to its paid version). It scans your computer without any noticeable slowdown, which is a huge plus.
[Download Here!](#)
- **Lightworks** - is a professional-level video editing platform that has a lot of advanced features. You can import just about any video format to Lightworks or record from a camera directly into the program. You can export your video to YouTube and Vimeo as an mp4 at up to 720p.
[Download Here!](#)
- **EaseUS Todo** - you can back up your system and files on a schedule to a safe place (including a local drive, CD or DVD, external drive, or the cloud) in case you lose everything.
